DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Redekop (US 2002 0004417 A1).

Redekop discloses as shown in the marked up drawings for greater clarity:

in re claims 2, 6, 12: wherein the blade defines a plane and the paddle is predominantly perpendicular to the plane (as shown in fig 2);

FIG. 4

A second paddle extends at an angle from the trailing edge predominantly perpendicular to the plane (cl. 4, 8, 14)

in re claim 11: wherein the integral paddle is opposite the mounting hole (see fig 2);

Response to Arguments

3. Applicant's arguments filed 9/29/2004 have been fully considered but they are not persuasive.
4. In response to applicant's argument that Redekop does not disclose "a paddle extends at an angle from the leading edge adjacent to the first end" (claims 1, 5, 10), because the "paddle" portion is adjacent to the second end rather than the first end, the fact that applicant has recognized another advantage which would flow naturally from following the suggestion of the prior art cannot be the basis for patentability when the differences would otherwise be obvious. See *Ex parte Obiaya*, 227 USPQ 58, 60 (Bd. Pat. App. & Inter. 1985).
5. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., paddle cannot be adjacent to the 2nd end) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).
6. In re the arguments above & in re claims 3, 7 & 13, see the drawing below for greater clarity, as well as the rejection above:

In re the arguments above & in re claims 4, 8, 14, the applicant misconstrued where the arrow is pointing, it is clear that the arrow cannot point (it does not & further adjusted to

make it even clearer) to a different element (i.e. first paddle), however it points to the second paddle element which is at an angle from the trailing edge and **predominantly** perpendicular to the plane.

It is noted that the above explanation & argument will be considered part of the rejection in case of an Appeal.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hladik, Jr.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
